PROFESSIONAL SUMMARY

Computer Science graduate with a background in DoW cybersecurity architecture, secure cloud environments, Zero Trust, and full-stack development. Experience in NIST SP 800-171-aligned solutions and CMMC compliance, with CCP certification and CCA certification in progress.

EDUCATION

University of South Florida Tampa, FL

Bachelor of Science in Computer Science. GPA: 3.75. *Dec 2025*

EXPERIENCE

CMMC Consultant Aug 2026 – Present

Kieri Solutions *Remote*

- Supported CMMC Level 2 assessment readiness efforts, including System Security Plan development and assessment guidance deliverables.
- Created technical artifacts (network & scoping diagrams, matrices, policies, etc.) to portray the design of client workflows, procedures, and system processes and support alignment with CMMC requirements to develop the SSP.

Security & UAT Consultant Aug 2026 – Present

Redwood Cyber Solutions *Remote*

- Execute end-to-end UAT to validate workflow functionality, security controls, data integrity, and Power App behavior.
- Identify and document defects, drive remediation, and verify fixes to strengthen UAT readiness and release confidence.
- Support planning and execution of client-tenant deployment, including UAT, security/data-quality validation, and deployment readiness.

Defense Technology & Systems Architecture Consultant Feb – May 2026

Trace Systems Inc. *Remote*

- Supported DoW mission modernization through secure cloud architecture and Zero Trust initiatives.
- Developed architecture artifacts and workflows for secure enclaves aligned with NIST SP 800-171 security requirements.
- Translated cybersecurity and compliance requirements into technical documentation and implementation guidance.
- Produced deliverables supporting security planning, compliance validation, and mission-focused solutions.

Lead Web Developer / Project Lead Consultant Aug 2025 – Present

SCx CMC Solutions, The Society of Professional Pharmaceutical Consultants, Compaction Simulation Forum *Remote*

- Delivered 6 client web platforms end-to-end, standardizing delivery workflows that improved client satisfaction.
- Architected scalable technical solutions from business requirements, accelerating time-to-launch across engagements.
- Owned planning, scope, and releases for membership and Stripe payment systems, enabling subscription models.
- Designed and built React + TypeScript and WordPress frontend architectures.

Software Engineer Intern May – Aug 2025

Martinrea International, MiNDCAN Team *Remote*

- Modernized an internal legacy system using React, TypeScript, and PostgreSQL, reducing system complexity and improving user experience.
- Led end-to-end delivery from schema redesign to API development, improving data integrity and performance.

PROFESSIONAL DEVELOPMENT & ACADEMIC PROJECTS

CMMC Certified Professional (CCP) Earned Jul 2026

CMMC Certified Assessor (CCA) Earned Oct 2026

- Building expertise in CMMC Level 2 assessments, NIST SP 800-171, and compliance readiness; knowledgeable about the CMMC Assessment Process (CAP) and assessment methodology and preparing to support CMMC assessments across the Defense Industrial Base.

Microsoft Certified: Azure Fundamentals Earned Dec 2025

- Validated foundational cloud knowledge in core Azure services, security, identity, and cost management.
- Completed extensive Microsoft Learn training covering cloud fundamentals, security, identity & access management, and data concepts.

US Cyber Challenge Cyber Quests 2023-25

- Ranked 83rd, 76th, and 42nd globally in three individual cybersecurity challenge competitions.

InCollege – Software Engineering Project Aug – Dec 2025

- Led development of a LinkedIn-style networking platform in COBOL using Agile, Jira, Slack, and GitHub.

SKILLS

Cloud & Security Infrastructure: Azure, Google Cloud, Google Cloud Run, Docker, Netlify, Vercel, GoDaddy

Cybersecurity & Compliance: CMMC 2.0, NIST SP 800-171, CMMC Assessment Process (CAP), Zero Trust, CUI, Compliance Readiness

Programming Languages: C, C#, Python, Java, TypeScript, SQL, PHP, CSS

Frameworks & App Development: React, Next.js, Node.js, NestJS, Redux, Astro, Tailwind CSS, .NET (WinForms), Sequelize, Vite

Web & API Technologies: GraphQL, REST APIs, Keycloak, WordPress, Weebly, Storybook, OpenAI API, Hugging Face API, MS Power Apps

Databases & Caching: PostgreSQL, Supabase, Redis, Neon, MS Access

Developer & AI Development Tools: Git, GitHub, VS Code, Postman, DBeaver, Draw.io, MS Visio, Visual Studio, GitHub Copilot, Codex, Cursor
