PROFESSIONAL SUMMARY

Computer Science graduate with experience in DoW cybersecurity architecture, secure cloud environments, Zero Trust, and full-stack development. Experience in NIST SP 800-171-aligned solutions and CMMC compliance, with CCP certification and CCA certification in progress.

EDUCATION

University of South Florida
Bachelor of Science in Computer Science. GPA: 3.75.

Tampa, FL
Dec 2025

EXPERIENCE

- CMMC Assessment Preparation Consultant

Kieri Solutions

Aug 2026 – Present
Remote

 - Supported CMMC Level 2 assessment readiness efforts, including System Security Plan development and assessment guidance deliverables.
 - Documented client workflows, procedures, and system processes to support alignment with CMMC requirements.
- Security & UAT Consultant

Redwood Cyber Solutions

Aug 2026 – Present
Remote

 - Execute end-to-end UAT to validate workflow functionality, security controls, data integrity, and Power App behavior.
 - Identify and document defects, drive remediation, and verify fixes to strengthen UAT readiness and release confidence.
 - Support planning and execution of client-tenant deployment, including UAT, security/data-quality validation, and deployment readiness.
- Defense Technology & Systems Architecture Consultant

Trace Systems Inc.

Feb – May 2026
Remote

 - Supported DoW mission modernization through secure cloud architecture and Zero Trust initiatives.
 - Developed architecture artifacts and workflows for secure enclaves aligned with NIST SP 800-171 security requirements.
 - Translated cybersecurity and compliance requirements into technical documentation and implementation guidance.
 - Produced deliverables supporting security planning, compliance validation, and mission-focused solutions.
- Lead Web Developer / Project Lead Consultant

SCx CMC Solutions, The Society of Professional Pharmaceutical Consultants, Compaction Simulation Forum

Aug 2025 – Present
Remote

 - Delivered 6 client web platforms end-to-end, standardizing delivery workflows that improved client satisfaction.
 - Architected scalable technical solutions from business requirements, accelerating time-to-launch across engagements.
 - Owned planning, scope, and releases for membership and Stripe payment systems, enabling subscription models.
 - Designed and built React + TypeScript and WordPress frontend architectures.
- Software Engineer Intern

Martinrea International, MiNDCAN Team

May – Aug 2025
Remote

 - Modernized an internal legacy system using React, TypeScript, and PostgreSQL, reducing system complexity and improving user experience.
 - Led end-to-end delivery from schema redesign to API development, improving data integrity and performance.

PROFESSIONAL DEVELOPMENT & ACADEMIC PROJECTS

- CMMC Certified Professional (CCP)

Earned Jul 2026
- Certified CMMC Assessor (CCA)

Expected Sep 2026

 - Building expertise in CMMC Level 2 assessments, NIST SP 800-171, and compliance readiness; knowledgeable about the CMMC Assessment Process (CAP) and assessment methodology and preparing to support CMMC assessments across the Defense Industrial Base.
- Microsoft Certified: Azure Fundamentals

Earned Dec 2025

 - Validated foundational cloud knowledge in core Azure services, security, identity, and cost management.
 - Completed extensive Microsoft Learn training covering cloud fundamentals, security, identity & access management, and data concepts.
- US Cyber Challenge Cyber Quests

2023-25

 - Ranked 83rd, 76th, and 42nd globally in three individual cybersecurity challenge competitions.
- InCollege – Software Engineering Project

Aug – Dec 2025

 - Led development of a LinkedIn-style networking platform in COBOL using Agile, Jira, Slack, and GitHub.

SKILLS

- Cloud & Security Infrastructure: Azure, Google Cloud, Google Cloud Run, Docker, Netlify, Vercel, GoDaddy
- Cybersecurity & Compliance: CMMC 2.0, NIST SP 800-171, CMMC Assessment Process (CAP), Zero Trust, CUI, Compliance Readiness
- Programming Languages: C, C#, Python, Java, TypeScript, SQL, PHP, CSS
- Frameworks & App Development: React, Next.js, Node.js, NestJS, Redux, Astro, Tailwind CSS, .NET (WinForms), Sequelize, Vite
- Web & API Technologies: GraphQL, REST APIs, Keycloak, WordPress, Weebly, Storybook, OpenAI API, Hugging Face API, MS Power Apps
- Databases & Caching: PostgreSQL, Supabase, Redis, Neon, MS Access
- Developer Tools: Git, GitHub, VS Code, Postman, DBeaver, Draw.io, MS Visio, Visual Studio
- AI Development Tools: GitHub Copilot, Codex, Cursor, CodeRabbit
