

Kira Cibak

Software Engineer | Technical Project Lead | Full-Stack & Systems Development

📞 908-217-1666 | ✉ cibakkn@gmail.com | 🌐 github.com/kcibak | 🔗 linkedin.com/in/kira-cibak

EDUCATION

Bachelor of Science in Computer Science, University of South Florida, Tampa, FL

Received Dec 2025

GPA: 3.75

TECHNICAL SKILLS

Programming Languages: C, C#, Python3, Java, SQL, TypeScript, CSS
Frameworks / Libraries: Node.js, Next.js, NestJS, .NET Framework
Web & API Technologies: GraphQL, REST, Keycloak
Frontend Technologies: React, Astro, Storybook, Vite, WordPress, Lovable.dev
Database & Infrastructure: Azure, Docker, DBeaver, PostgreSQL, Sequelize (ORM), Hostinger, Bluehost, Redis (caching), MS Access, Netlify, GoDaddy, Brevo, WP Forms, Make.com
Development Tools: VS Code, Cursor, GitHub/Git, GitHub Copilot, CodeRabbit, HuggingFace APIs, OpenAI APIs, ClickUp, Jira, Slack, Monday.com, Postman, Parallels, PowerShell, Bash, MS Visual Studio Community, WinForms (.NET)
Network Tools: Wireshark

EXPERIENCE

Lead Web Developer / Project Lead

Aug 2025 – Present

SCx CMC Solutions | Remote

- Led end-to-end delivery of 5 client web platforms, managing requirements, timelines, deployments, and post-launch maintenance.
- Coordinated with non-technical stakeholders in pharma and nonprofit sectors to translate business needs into technical solutions.
- Owned project planning, scope control, and release execution, enabling paid memberships, Stripe revenue flows, and CRM automation.
- Oversaw frontend architecture (React+TypeScript using Lovable)/WordPress customization and managed integrations across WooCommerce, Brevo, SMTP, and DNS/hosting providers.
- Architecting/implementing a production-grade deployment system for WordPress and Next.js apps, enabling streamlined launches.

Software Engineer Intern

May 2025 – Aug 2025

Martinrea International – MiNDSCAN Team | Remote

- Independently led the replatform of a SaaS license management system to a custom React+TypeScript and PostgreSQL architecture.
- Drove requirements analysis, schema redesign, and API development, reducing database complexity by ~25%.
- Coordinated testing and validation using Postman and Redis caching to improve system reliability and performance.
- Delivered a maintainable full-stack solution used by internal stakeholders.

Professional Development & Programs

Microsoft Certified: Azure Fundamentals (Earned 12/26/2025)

- Foundational knowledge of cloud concepts, core Azure services, security, identity, and cost management.
- Completed other Microsoft Learn training covering cloud fundamentals, security, identity & access management, and data concepts.
- Earned 44 Microsoft Learn badges and 11 trophies through structured learning paths.

US Cyber Challenge Cyber Quests

- Selected participant in the U.S. Cyber Challenge, a competitive national cybersecurity talent pipeline.
- Ranked 83rd, 76th globally, and 42nd internationally in three previous challenge-based cybersecurity competitions.

RELEVANT COURSEWORK

Software Engineering

Aug 2025 – Dec 2025

- Developed InCollege, a LinkedIn-style networking platform in COBOL with a 5-member Agile/Scrum team, using Jira, Slack, and GitHub.

User Experience Design

Jan 2025 – May 2025

- Prototyped a therapy note-taking web app (React+TypeScript, PostgreSQL) using design thinking and usability testing.

Secure Coding

Jan 2025 – May 2025

- Gained knowledge of defenses against SQL injection, XSS, and buffer overflows, referencing IEEE CVEs.
- Studied cryptography, authentication, and access control for applying security best practices.

Software System Development

Aug 2024 – Dec 2024

- Built a C#/.NET system for stock data analysis with .csv uploads, candlestick/volume charts, and trend detection.
- Applied principles of system design, OOP, UI development, and full SDLC practices.
